PRESENT YOUR BOOK OF THE YEAR

THE 1951

Jayhawk

The 1951 *Jayhawk*

Deep in the hills and valleys
There stands the school we love.
Oft' in the dimming twilight,
Our hearts return to thee . . .

Editor Baylee Friedman (center) looks at sports pages of Bob Miller and Jack Greiner.

The Authors

COMPLETE A FULL TIME JOB

All the editors complained about writer's cramp, the typists lost quite a few brightly colored nails, and Mr. Patterson was all prepared to "end it all" because of overdue yearbook payments, but every single member of the 1951 Jayhawk staff had fun while creating this record of the best years of our lives — those spent at Jeannette High. It took a great deal of time and even more "elbow grease" to make this yearbook depict those many happy incidents of high school life. And we hope you will enjoy using it "For Future Reference."

ROW ONE: Joanne Schlosser, Joan Wolf, Regina Little, Claire Few, Jo-Anne Marian, Myrna Ickes.
ROW TWO: Mr. Patterson, Norma Myers, Blanche Friedman, Audrey Zellers, Sally Harshey,
ROW THREE: Alice Grabowsky, Rose Rosso, Vivian Schmidt, Virginia Myers, William Nedley, Gwen Charlton, Eugenie Riedmiller, Jeanne Patton.
ROW FOUR: Robert Clayton, Jack Bernard, Robert Miller, Jack Cribbs, Joseph George, William Ressler, Jack Greiner.

"Proof reading ain't much fun!"

Pop go the fingernails!

Senior writing in Myers' kitchen proves fattening.

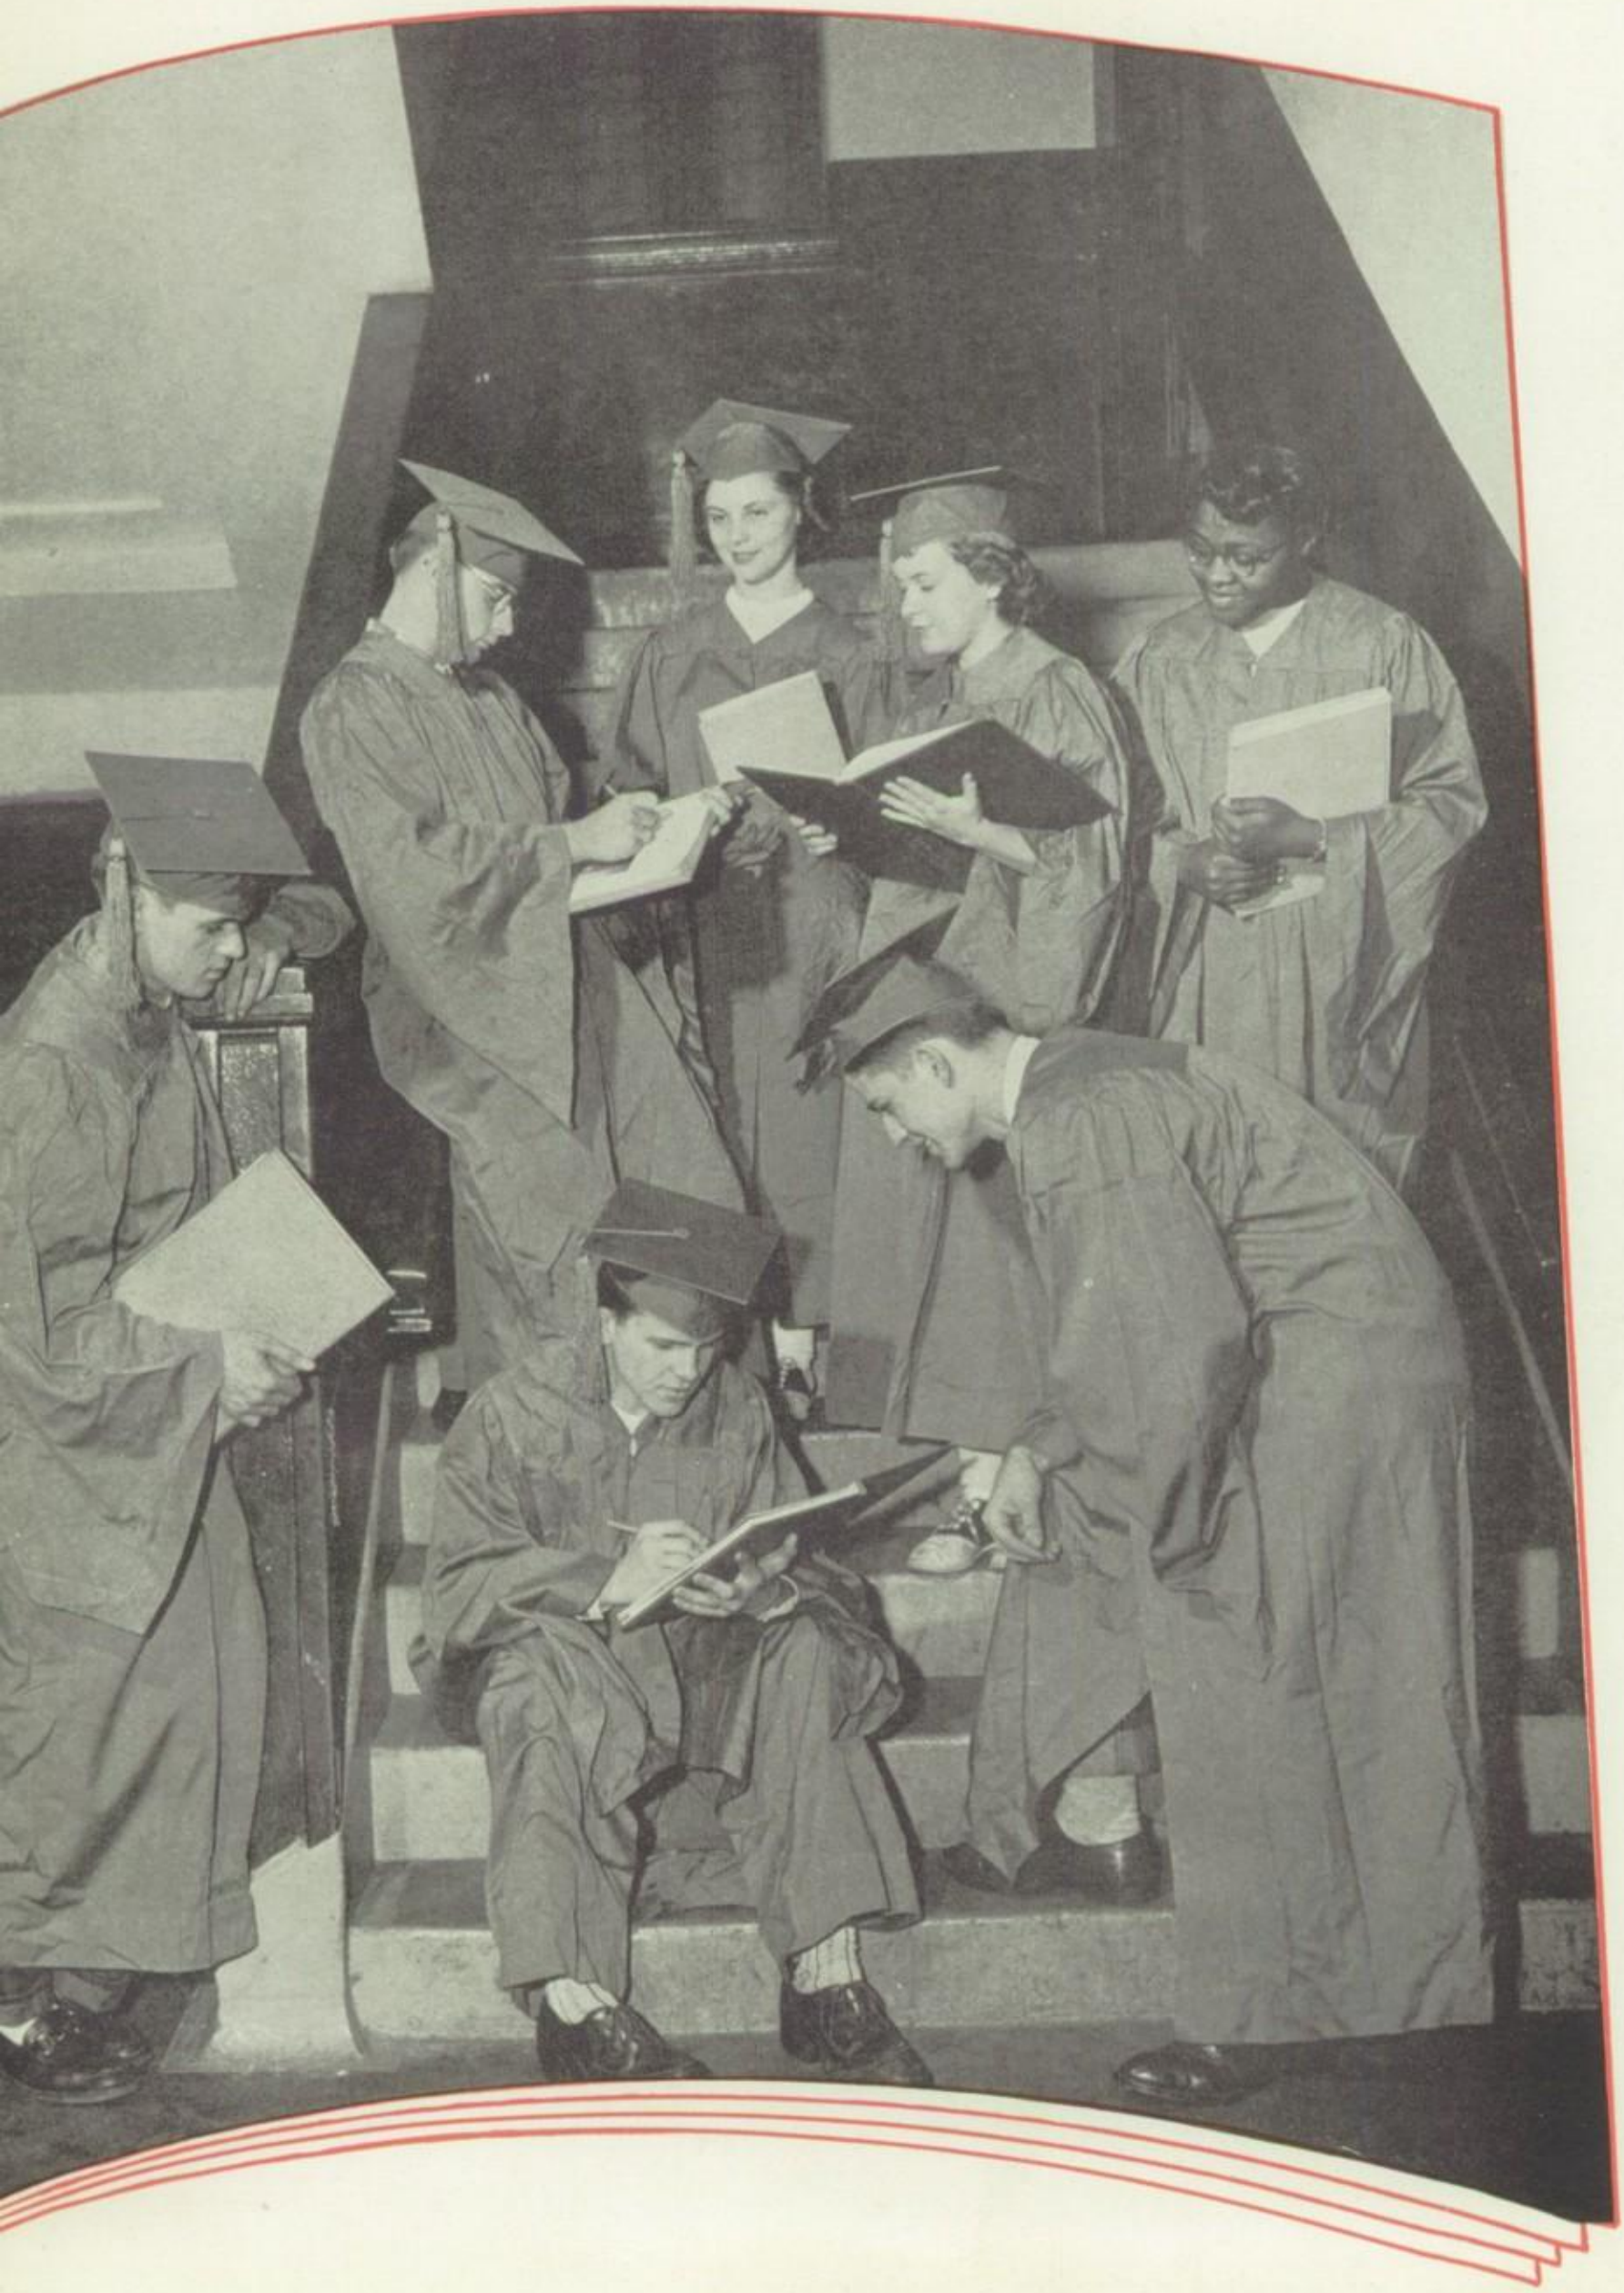
Whew — glad that's done.

Off to get the ads — and the money.

The pause that refreshes while club pictures get identified.

the characters we met

Intent on fun from our stubby crew cuts and oval barrettes to the tips of our dirty saddles, we're a problem to everyone — but ourselves. Little J. D.'s (juvenile delinquents) with a mysterious lingo only we can understand, we're referred to as "that awful younger generation" by all above twenty-one. Our bobby sox, light-up ties, and beanies may seem impractical, our rollo-coaster picnics and blue jean wardrobes may be impossible, but we are normal, healthy American kids, proud of our school, proud of our community — and the pride of the nation.



Administration

Everyone meets and knows

BOARD OF EDUCATION

A group of well-informed, public spirited citizens is the Jeannette Board of Education (and definitely not "bored of education"). These civic-minded persons, have the duty of governing educational affairs. Elected by the popular vote of Jeannette citizens, they have a responsibility requiring wisdom and common sense. They decide how to spend the money entrusted to them and continuously are asked to solve the million and one problems confronting them. Under their direction, our school has become well-known for the fine standards of academic and vocational education. Also this high school has become noted for the fine vocational equipment and most modern football stadium and field house in the district. The erection of such excellent athletic facilities have incurred many problems, but they came through with flying colors.

This year's graduating seniors are grateful for the educational advantages offered them by the school board. Here's hoping for continued success of the finest board of education in the nation (at least we think so)—that of the Jeannette school district.

Seniors . . . Conclude a Thrilling Chapter

Deep in the hills and valleys
There stands the school we love
Oft' in the dimming twilight,
Our hearts return to thee . . .

Soft — and loud, these senior voices have filled the auditorium on every assembly day for four years. These were years during which bewildered, immature freshmen transformed into responsible young adults.

But becoming sophisticated (?) seniors didn't change us too much. We still drooled over Farley Granger and Liz Taylor, we continued to survive solely on hamburgers, potato chips, and coke, and there were detention hours awaiting us when we cut classes — seniors or not.

For the fourth year, "Chicken" Greiner moved into his already familiar position of class prexy, and, with his fellow officers, led the class of '51 through six glorius sextiles.

The memories seemed to pile as high as the big snow after Thanksgiving. Joanne Seymore's giggling in study hall; a chem test which required burning the midnight oil. "What is prejudice?" "Where in tarnation is detention tonight?" There were four years of learning, learning, learning — and listening to the heavenly sax solos of "Slew" Getto.

Oh, yes, there was much to remember. "Clutch" Opar's corny jokes—Merle and Dick both having the honor to "open this afternoon's assembly in the usual manner." The recommendations made to the faculty for softer seats in study hall and to student council for a better year. Memories of a grand freshman party in '47 and a wonderful senior banquet in '51.

And, all too soon, it ended. A Commencement Day came with a diploma and a step into Tomorrow. These eyes filled with tears, and these determined senior voices rang out once more, softly in harmony—and then loudly, with pride.

. . Alma Mater, emblem of Truth and Right
Alma Mater, how dear to us thy light
In mem'ry of thy teachings,
Our hearts are always bright.

Treasurer, Sally Harshey, Vice-President Dick Gounder, Secretary, Wilma Tragesser, and Class President, Jack Greiner.

Here's a photo for Chicken's senior album.

It's a great feeling—this being a "Big Wheel"! When 1950 rolled around and placed upon us the honored title of Upperclassmen, nothing less than a bulldozer could make us believe that we weren't "heaven's gift to Jeannette High." But soon the inevitable occurred—heads lost their swell, chests assumed their original position, and buttons were resewn with utmost care.

We soon became very busy putting our two-cents worth in about how JHS should be run. One of us, Arlene Gardner, was the first junior ever to be NFL president. Our own "Erv" Guzik helped make the touchdowns. Carol West was not only an Oscar editor but also was taking minutes in Student Council. And Danny Bartolomucci was still laughing.

Once again "Battle" Battaglini was elected to the class presidency. The first big junior affair of the year, the Harvest Hop found him, Miss Double, and every committee working for weeks in advance. These eager beavers rolled up their sleeves and helped turn out one of the most successful junior parties of JHS history. No one will ever

forget the smiling "harvest moon" (and it would be hard to forget the famous rendition of "The Thing").

These nine months were filled with events. The plane geometry homework really got rugged, as did history, English and everything else they put on report cards. The freshmen looked so tiny to us this year—"too bad our periods don't come that short." Upperclass assemblies were better (and longer) than we'd ever known. But waiting in our seats until the seniors departed—well . . .!!!

Prom arrived with an array of tafetta, marquisette and dotted swiss; homework also came in an assorted selection of biology, math, typing, and shorthand. The freshmen were thrilled to know us, the Big People of the Campus (garsh!), and secretly we were thrilled to be looked up to as we were.

New pals arrived from Manor and Harrolds, and what a grand crew they were. That's not all that was new! The fellows were finally sporting drivers licenses, and many gals were also taking the wheel (while pedestrians were wary).

When classmate, Steve Seber, passed away so suddenly, our laughing voices took a note of solemnity. Steve was a good friend to us all and his passing has left a gap in our class which could never again be filled.

The year has reached its end, and so very quickly, too. We admit that it's a pretty great feeling—that being a junior. But next year the sensation will be even greater.

Elevator tickets were sold to freshmen on September 5—and no longer were we the "greenies" of J.H.S.

You see, last year was the one of acquaintance. We memorized algebra rules—and the words to "Deep in the Hills and Valleys." Now, of course, we know what's what and are a part of high school's "who's who". Leila Giordano has found a permanent place on the honor roll along with several other of our feminine intelligence specimens. Patty Hahne twirls the baton and Jim O'Hare helps decorate for All-School Dances.

Things surely were different now. No longer was civics considered "the plague"; now it was history. Girls and boys were acclaiming how happy they were to make the honor roll—or the Betas. We went to the Buhl Planetarium during Latin week, and we memorized Portia's mercy speech during algebra class.

Social events filled a calendar which included club Christmas parties, picnics, and dances. Our sophomore party was the scene of fellows at home on the dance floor and gals at ease in silk hose. Decorations were beautiful and the refreshments —well, they were all eaten with gusto. Prom also found several of our classmates joining in the Grand March—a real sign of maturity, eh what!

Phil Houser led us very capably this year, during which we joined many clubs, met Oscar deadlines, and tripped the light fantastic at noon dances. We moaned over report cards along with the rest of the students. And we claimed that "I didn't even study" after getting the highest score on the test (not much, we didn't).

The year was a well-rounded one. Biology notebooks and world history reports proved us to be wide awake and alert. Assemblies and home room programs revealed budding talent, worthy showmanship. Muscles were at last being flexed by our boys who had become a vital part of the athletic teamwork. And pals were we to the frosh as well as the upperclassmen, with whom we worked on club affairs.

It was quite a year, alright. And we expect even more when we emerge as the upperclassmen of September '51.

We aren't green! That is what we have been trying to tell those teasing upperclassmen, but somehow, they never believe us. Granted, we did look a little silly on initiation day. Then too, we did mix the cheers a little at pep rallies. And we also got lost a few times during the first week. But we aren't green . . . !!

A terrific new year began when the first girl in ten years, Rose Marie DelBene, was elected class president. Under her leadership we got into the swing of things and lost some of that chlorophyll tint." We studied every typical J.H.S. mannerism—wore red and blue jackets, yelled "Rip, Roar, Blood and Gore" until we were blue in the face, and still insisted that our older friends were color-blind.

A lot of little things made up our year. The honor of being mentioned in the Oscar was indescribable. Study hall seemed to be the hardest place in the world to find. And tests in high school

were no push-over. We were participating in all sorts of club activities this year, so even though we did appear slightly chartreuse—we weren't green!

The pace at first was very slow and everything was NEW. Freedom in the halls between classes seemed more as if a fire had broken out somewhere. Learning Latin, our first new language, was a bright novelty and we loved reciting "amo, amas, ama" to all uncomprehending classmates. And assemblies! Well, there were just nothing like assemblies. When club assemblies arrived, we were actually participating instead of merely watching. There was a certain thrill in seeing our own classmates on the athletic squads, in chorus productions, in the band, at the Prom.

It didn't take us very long to "catch on." We joined clubs, attended football games, got detention notices and honor roll sheets.

Then before a rainy Jeannette-McKeesport game, when the band played the Alma Mater, and our senior chums were trying hard to hide their tears, we realized how lucky to have three more funpacked years. Too soon, though, we'll be saying, "Oh, to be a freshie again!"

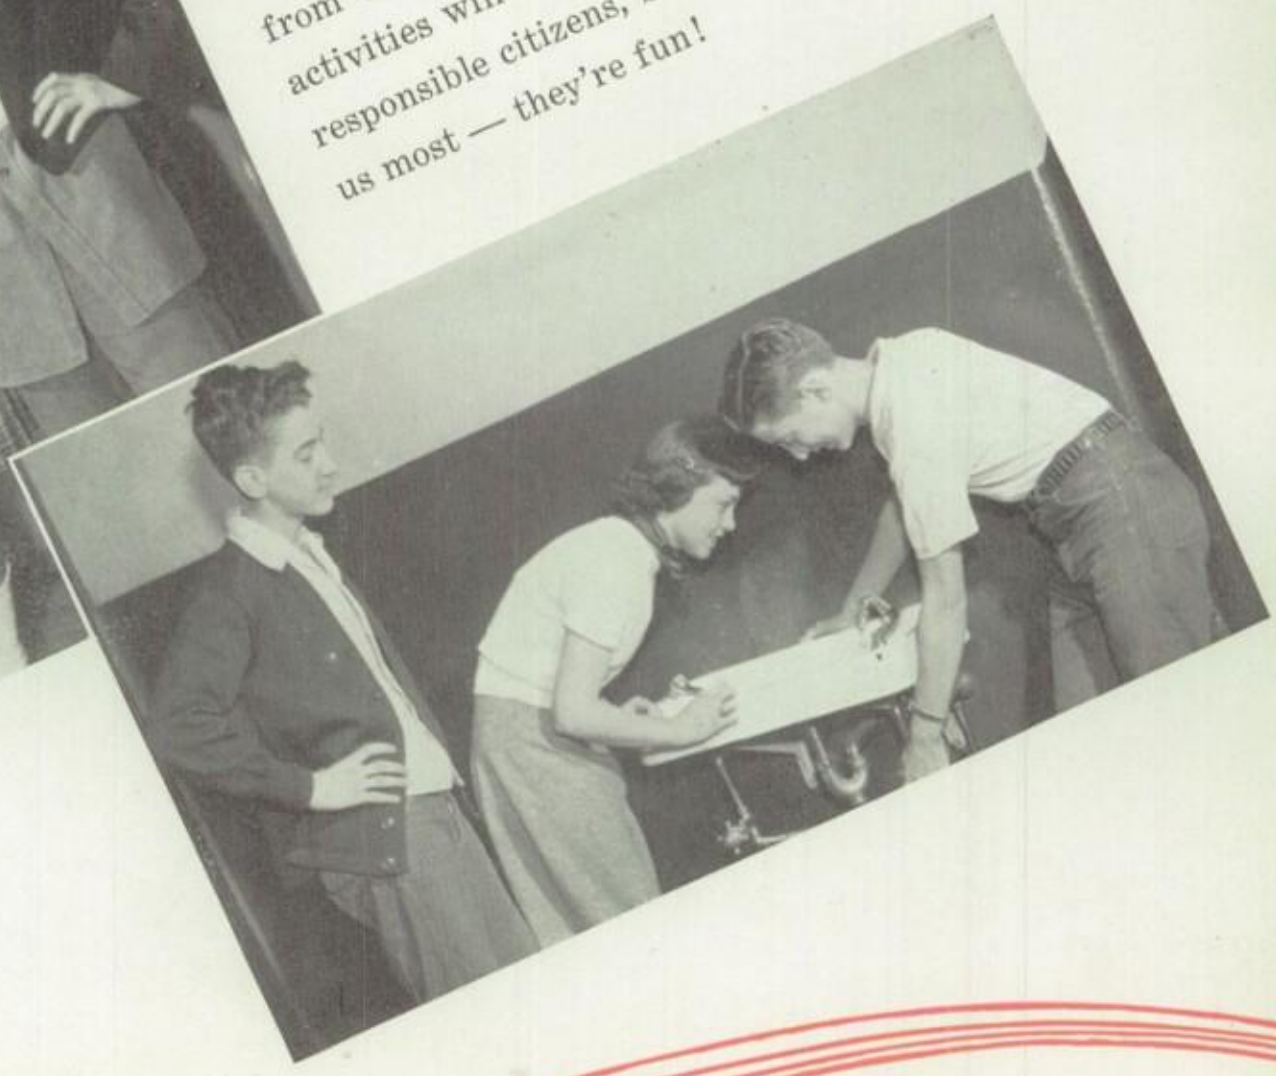
the plot we lived

All work and no play . . . ? ? Not one J. H. S. Jack (or Mary Jane, for that matter) could be classified as being "dull" because Oscar must be published twice monthly, and club meeting programs must be planned, and assemblies must be produced. We really don't mind laying our math books aside when there's band concert rehearsal. And once a month, Tri-Hi-Y or Chef Club meetings manage to tear us away from that bookkeeping problem. These activities will make us good leaders and responsible citizens, but what impresses us most — they're fun!



Third period, and students are busily reading their study halls away.

Library Staff

hangout of Knowledge and Bookworms

The library monitors are very helpful in assisting the students to find the right books. If it's a special topic for English, history, or any other subject with the help of the monitors it is easily found. Miss McMaster is the director of the library monitors, and she teaches them points which they should know about library work. The girls assist in the library during their study hall periods, placing books in proper places, helping with bulletin displays, and many other interesting things which require good judgment. While working in the library, the girls learn many new experiences and how to do library work, which will help them in the future if they want to have library work as a profession or work at it as a part time job.

brings the news first-hand

Miss Fontanella, Editors John and Mary Ann, Features Editor Genie Reidmiller, Club Editor Carol West and Exchange Editor Arlene Gardner.

So this is how Oscar comes to be!

They can't wait until Friday. Who can't? The student body. Why not? Because that's the day that the Oscar is distributed. What, in heaven's name, is the Oscar? It's the student publication put out by 22 hard-working future journalists who include all the news and gossip for the entire high school in four neatly arranged pages.

Under the capable sponsorship of Miss Fontanella (she's always bubbling with ideas) and editor Mary Ann Sticca, the Oscar has seen another very successful year.

Well, now do you know what the Oscar is? Yes, and I can't wait until Friday either.

Band marching along together

. . . red and blue on parade

The majorettes are marching — gracefully stepping and expertly twirling. The color guards proceed straight ahead guarding with security the great value in their protection. Drummers roll the drums, and the rat-tat-tat beats out a rhythmic introduction for the impressive boom—boom—boom. The oompah-pah of the tuba, the woodwinds, the brasses, the bells are all in perfect harmony. And Perfect Harmony is just another name for the J. H. S. band.

A group of talented musicians are these band members, who, under the leadership of Mr. Lodzsun, are just as "at home" marching on the football field as they are on the concert stage.

The half-time skits presented by these hard workers are so enjoyable, that each year our band is asked to perform at a Pittsburgh Steelers football game.

When the season of "If the team goes, we go" is over, the concert season begins. Many long, hard rehearsals and much personal effort finally find reward in a very successful concert each year.

A picnic comes in June, and that means the annual school parade. Seniors doff their familiar red and blue uniforms and don the gray cap and gown of commencement. No longer will they experience the joy of working together in the harmony that third period affords. But what may hurt most will be the cessation of the old familiar phrase—"Forward March."

CHORISTERS

For the 56 persons who have membership in the JHS chorus, second period is the best of the day. Always striving for perfection, these talented singers can "give out" with beautiful arrangements of compositions ranging from "Ave Maria" to "Get Along Home Cindy."

Since chorus is a regular school subject, Mr. Lodzsun gives the group voice training so that clear diction may be attained. He also gives each chorus member an opportunity to direct the entire group.

Each year our school is represented at the Southwestern Music Festival by a few of the most talented choristers.

When the mercury drops in December, Jack Frost is accompanied with the year's most impressive choral production, the annual Christmas pageant. And it's many months before their yearly assembly when these melody makers begin exercising their vocal cords with the popular ballads, folk tunes, and hymns so well received by the student body.

Each spring, the "poisies and boidies" have quite a time getting attention when Baccalaureate and Commencement exercises are made complete with the lovely strains supplied by our JHS chorus.

. . . and making beautiful music

MUSIC CLUB

Maybe Jimmy Jones (f'r instance) is a music lover but never got beyond "Chopsticks" on the piano. Or say that Sally Smith can make her tuba "oompah-ah" like any professional, but who ever heard of a tuba solo? And everyone knows that Billy Baxter can really make his clarinet sing. Everyone of these musically inclined persons belongs in the Music Club — and loves it. Since the club purpose is to build an understanding and an appreciation in music, whether a listener or a performer, every member can enjoy its monthly musical programs. And Mr. Lodzsun, club sponsor, makes certain that whether a Jimmy Jones, a Sally Smith, or a Billy Baxter — each individual member increases his interest in music through enjoyable Music Club meetings.

ORCHESTRA

Whether one's interest leans toward Beethoven or Bop, he's bound to be pleased with the rhythmic melodies created by Mr. Lodzsun's talented orchestra members. They add the necessary spice to assemblies and other school affairs — from a community sing to a Christmas pageant. Sixth period is always a grand time for these persons who are lucky enough to be eligible for such a profitable school subject (of course, it's extra-curricular, too). They learn to develop their talents and also learn the more valuable lesson of cooperating in harmony. Each year a few outstanding members are chosen to represent our school at various district music festivals. The empty seat in F12, left because of Steve Seber's untimely death, put a dent into the harmony of his fellow orchestra members who now dedicate their music to his memory.

Clubs for fun

Travel Clubbers Boettner, Stough, and Houser "see the world."

TRAVEL CLUB

For the student who has never learned that Jeannette isn't the only city in the world, a Travel Club membership would be a grand way to find out. Organized in 1944 and under the sponsorship of Mr. Stoud, the object of the club is to create the desire to travel. Members are selected from application forms given any student interested, and the funds come from the annual dues and sale of football schedule pencils. Activities include an annual trip to Pittsburgh, a morning hike to Mount Odin in the autumn, and a picnic hike to Bushy Run in the spring.

FIRST AID CLUB

A good common sense club is this one. Nothing is more basic than the sense of self-preservation and these club members learn through their interesting club periods how to do just that. First aid is the program of these students and safety is the purpose. Monthly meetings center around safety measures and first aid methods, which include control of bleeding, bandaging, artificial respiration or any one of many such practices. After learning such useful information, the First Aiders of today will soon become tomorrow's careful adults (providing they don't get in any accidents first).

PHOTOGRAPHY CLUB

This club was just reorganized this year. Under the direction of Mr. Polk the photography members are taught better technique's of camera photography. Through analysis and criticism of pictures taken by each member they have learned a great deal about this art. Membership may be obtained in the Photography Club by submitting pictures taken by yourself on your own camera. Sometime in the near future the photography club plans to take pictures for the yearbook. Funds for this club are obtained through club membership dues.

QUIZ CLUB

There's a club in this school that's a snob. Yes, anyone who isn't lucky enough to be a freshman simply is refused membership in the popular Quiz Club. For the fortunate frosh who attends its meetings, there are monthly quiz programs held on a competitive basis. Each month the brain answering the most questions is named "Quiz Kid of the Month" and the intelligence specimen who chalked up the most points in nine meetings is dubbed "Quiz Kid of the Year". Advised by Miss Duncan, the Quiz Club plans an annual noon dance, Christmas party and final spring affair. A snob to those over fourteen-but still one of the finest clubs in school.

"Pappy" aims the nozzle in "Washington Slept Here." (Gress, Zahratka, Gurksnis, McDevitt.)

GREX CLUB

The calendar of this talented group is jam-packed with lots of wonderful things to do. The ever-busy dramatic Grex Club, under the direction of Miss Davis, worked for weeks to present the annual three-act play. Yes, "George Washington Slept Here" was a grand success and so were the noon dances, the Christmas Ball at the Penn Albert Hotel, the annual banquet, assembly, touring variety show, and the Pittsburgh trip. (Whew, quite an agenda!) But that's not all . . . ! Each year an "Oscar" is awarded to the best actor and actress of the year.

FORENSIC LEAGUE

Bursting with talent and energy, these National Forensic League members take time out from their studies to participate in N. F. L. tournaments. Although no regular club period is allotted for this group, it is one of the most active in the school. Miss Davis enthusiastically directs our budding amateurs in all types of forensic speaking — extemporaneous, humorous, dramatic, poetic, and oratorical. Now in its tournaments and a treat Student Congress. Not only is N. F. L. amazingly constructive in public speaking and poise, it is also a lot of fun. And isn't that pretty important?

MIDGET PLAYERS

This new and interesting club was started this year, under the supervision of Miss Davis. The Midget Players Club is open only to the freshmen. The progressive Midgets have had a very successful skating party, also, a noon dance was held. Even persons who didn't know how to dance, had a grand time learning. A bake sale was also sponsored by the Midget Club. On their club days, the Midgets have various types of entertainment which everyone enjoys. Miss Davis teaches them dramatics, public speaking, and other very helpful hints about public speaking.

PRIESTLY SCIENCE CLUB

Those rocking explosions which may have been heard coming from room 302 were just the "Junior Einstein" members of the Priestly Science Club during one of their experimental programs. Since under the ever-watchful eyes of Mr. D'Amato, this doesn't happen every month. These programs are planned in such a well-rounded way that the students see up-to-date movies and hear useful lectures. One day is spent on a field trip to Pittsburgh where members are kept well informed on the news and data of the scientific world.

STUDENT COUNCIL

Fellow classmates, meet your legislators!—the students chosen to represent you in the school lawmaking body. Student Council is exactly what the name infers. It is a council made up of guys and gals of each home room, giving each member of each class a voice in the say-so of the school. Sponsoring our enjoyable all-school dances is fulfilling one of their many responsibilities well. These representatives have given of their time and efforts towards making our school life packed full of activities and formulating the governing policies of Jeannette High.

LIBRARY CLUB

The Library Club is a club with a good purpose of preparing students who are interested in library work and activities. The sponsor of this club is Miss McMaster. She helps to promote interest in the library duties among the students. The club has various activities, such as practice in the library processes, the special uses and studies in reference work, and very important discussions of library work as a profession. Every year the library sponsors the Book Week Contest which is very beneficial to find out what you know about books.

EL CIRCULO ESPANOL

The members of this club are led by their capable advisor Mrs. Brady. To be eligible for membership in the Spanish Club you must have a sincere interest in Spanish and have Spanish included in your curriculum. The meetings are carried on in Spanish and the minutes are also recorded in Spanish. The social activities of their meetings consist of singing, dancing, and the playing of Spanish games. The aim of this club is to help promote the "good neighbor" policy. This is done by many students of this club who correspond with Spanish boys and girls.

CLASSICAL CLUB

Some folks say Latin is dead. Well, those same persons would be shocked out of their boots if they could eavesdrop on a monthly Classical Club meeting. These enthusiastic members conduct business sessions, educational programs, and social affairs with so much spunk and energy that even those deceased Latins—Nero, Caeser, Brutus, and the rest—seem to come to life. What can they possibly do with a culture considered by many about as lively as a morgue? Besides giving reports about Roman mythology and culture, they present Latin skits and play games which give them a greater understanding toward the language.

ETTA KETTE

Teaching the little freshies how to dance includes some of the activities of the girls of the Etta Kette Club. This club is sponsored by that well-liked teacher, Miss Hansen. Each year the club presents a very amusing assembly which helps all the students of J. H. S. improve their manners. An annual picnic is also enjoyed by the members each spring. They hold a Christmas party every year and exchange gifts. Club period includes little humorous sketches on how to improve the members' etiquette. At the year's end, the club entertains all it's seniors with a party.

COMMERCIAL CLUB

Learning what the rights and wrongs of being a good secretary are what the thirty-two members of the Commercial Club do on club day. This club, sponsored very efficiently by Mrs. Stiffey, is open to all students enrolled in the Commercial Course. Other activities the club includes are the annual field trip to Pittsburgh, which takes in a delightful tour to the Bell Telephone Co., and to some of the big dairy plants in the big city. The program for the year also includes the annual assembly program, enjoyable motion pictures on "Secretarial Work", and a very outstanding speaker from a local plant.

CHEF CLUB

Whoever said that the best chefs are found in France has never tasted the food made at J. H. S. Chef Club some meetings (or have they?). Under the direction of Mrs. Brown the members of the Chef Club prepare and eat one big meal at each meeting. They do their best to make it good, because they must digest it whether burned, over-cooked, or raw. Aside from cooking, the boys learn the proper way to set a table and serve food. When one passes the Home Economics room on club day, the aromas coming from there really "sends."

NATURE STUDY CLUB

The main object of this club is exactly what the name implies; members are interested in studying all about flowers, birds, trees, plants and wild animals. Mr. McLean our biology teacher is their capable sponsor and is well versed on these out-door subjects. Weather permitting, these eager beavers strike off for the woods in search for leaves, insects and other treasures to be delivered at the next club meeting and they are discussed by the club. There are many benefits to be obtained from this club, but one of the greatest is the knowledge the members gain from research and discussion.

Clubs teaching cooperation

Caught in the act! Mr. Boettner's square dancers promenade a period away.

BOYS' GYM CLUB

This busy club, which is under the capable supervision of Mr. Churchman, is open to all boys in the gym classes or those who have participated in any of the high school athletics. During the monthly club sessions, the boys indulge in various games such as basketball, dodgeball, kickball, and strenuous calisthenics and relays which help them to develop those "bulging muscles." Although this club's monthly programs are always very enjoyable, the most exciting, by far, comes at the last meeting when the senior boys of this club play a basketball game in which all other club members are their opponents.

HUNTING AND FISHING CLUB

These energetic boys are now being prepared to become the better sportsmen of tomorrow under the able guidance of Mr. Amann. Those exciting stories the boys are always talking about aren't just mere figments of their imaginations, but the actual facts of their own hunting and fishing trips or those related by their guest speakers and game commissioners whose stories usually make up the club program. Each member is made a Junior member of the Lincoln Heights Sports Association. Like real sportsmen their interests are also conveyed to the feeding of wild life whenever Mother Nature is hindered to do so.

A.M. SQUARE DANCE CLUB

By the looks of the size of the membership of these two groups everybody loves to square dance! From the "Virginia Reel" to "Birdie in the Cage" to "Skip to My Lou" and back again, the magic of hillbilly music gets hold of these members and stays until the end of the club period. Mr. Boettner, the club sponsor, calls the figures expertly and does a good job of teaching the basic fundamentals of square dancing. Once the "bug" of promenading hits the members, they're doing it all over the school. Evidently square dancing immediately after breakfast is not so upsetting as it sounds.

P.M. SQUARE DANCE CLUB

Make theirs' country style ! ! ! Whether lowly frosh or wordly seniors, these kids are not "squares" if they spend their club period doing the square dance. By means of various country steps — much older than jitterbug and as graceful as round dancing — Mr. Albright's proteges acquire poise and self-confidence on the dance floor. A "shy guy" who wouldn't think of asking a girl to dance can be found swinging that partner with as much ease as the chuckling that goes along with it.

CERAMICS CLUB

Join the Ceramics Club and learn one of the most fascinating and interesting arts you will never forget. The ambitious members make ashtrays, dishes, jewelry, pins and many other novelties for home and their own personal use. You may think the articles hard to make, but they aren't. First each is molded by hand. Then the form is baked in a special oven called a kiln. Then it is glazed and smoothed and ready for display and approval by the members of the club. This club is open to all girls who are in high school. The club has Miss Patch, our Home Economics teacher, as its capable sponsor.

ROW THREE: B. Stoltz, I. M. Flemn, G. Selva, Z. Fisher, M. Clayton, P. Wilson.

POWDER PUFF CLUB

Members of this club have a worthy purpose—that of adding beauty to the weaker sex. Perc Westmore has nothing on these gals. Through their monthly club meetings held in the Beauty Culture rooms, they learn the "do's" and "don'ts" of good grooming. Also demonstrations are given by the club sponsor, Mrs. Benevantano (fondly called "Mrs. Benny") on hair setting, facial giving, and manicuring. Members use each other for models and experiment in various hair styles, make-up types and shades, and colors. So when a Powder Puff Club member advises a different shade of lipstick, she's usually dead right. And plenty pretty, too.

REMBRANDT CLUB

REMBRANDT CLUB

These kids have what it takes when it comes to drawing, painting, or anything else requiring artistic talent. Since they love art so much, they not only elect it as a regular school subject, but also carry their talents into Rembrandt meetings. When the blustery winds of December seem to dull the Christmas spirit, "Rembrandters" make colorful "Merry Christmas" posters for each home room and the halls. A group of hard-working students who delight in creating and spreading beauty—hats off to the Rembrandt Club of Jeannette High!

GIRLS' CRAFT CLUB

This very interesting club is under the direction of Mr. Black. The girls are taught how to make bracelets, which really look professional; also the beads made by the girls are very pretty. Gradually, the girls work into costume jewelry which certainly looks beautiful. This jewelry is made from metal. The girls also experiment in forming and bending plastics. Any girls interested in knowing how to make novelties, jewelry, or learning new techniques about it, should join the Craft Club. It is hard to distinguish their jewelry from bought jewelry.

Hi-Y's build character

Hi-Y'ers eat heartily before an impressive installation ceremony.

ALPHA HI-Y and BETA HI-Y

They're the clean cut fellows with heads held high and Hi-Y symbols sewed carefully on their red and blue sweaters. They're the Alphas and the Betas and a group of great guys. They're the pride and joy of Mr. Basom and Mr. Patterson. Yup, they're the tops! Why all the praise? Simply because these boys deserve it. Take the Alphas (and what normal gal wouldn't?). They work their noggins off trying to sell football pins and Jayhawk book covers and make sure that the money goes into Christmas baskets for needy families. Or take the Betas. They get together with their Alpha buddies and present a tremendous turnout at the annual Hi-Y conference despite rain or snow or girl friends' protests. Interesting club meetings include speakers, discussions, musical programs, and occasional combined meeting with Tri-Hi-Y. These fellows did a magnificent job in helping prepare the annual installation banquet. The Alphas took care of the program and the Beta boys made sure that the ham dinner was mouth watering. And these fellows also made sure that there would be enough room and music for dancing afterwards. Hard-working Hi-Y'ers of today—outstanding citizens tomorrow.

ALPHA TRI-HI-Y and BETA TRI-HI-Y

When Tri-Hi-Y was formed in Jeannette, the popularity of the club was so great that it was necessary to divide the membership into two separate clubs. A friendly rivalry exists between the two groups, but together they work to attain their goal "to create, maintain, and extend throughout the school and community high standards of Christian character." The dues of groups go toward similar projects. Both have noon dances, a Christmas party, a treat for the Children's Home in Greensburg, an annual assembly, and a party in honor of the seniors. One exclusive project of the Beta girls was to distribute a wonderful yearbook containing the names of the committee members, officers and club song. The Alphas had a super-successful Sadie Hawkins Day Dance to which the Hi-Y and Tri-Hi-Y'ers were invited. An honor point system has also been installed in which each member receives a certain amount of points for serving on committees, and participating in club affairs. At this writing, a final affair is being planned in which a "queen"—the girl with the most points—is honored. Interesting Alpha and Beta meeting programs have included a parent - student discussion on teen problems, noted speakers, a Brotherhood week discussion, and many other interesting programs.

YEARBOOK COLLECTORS

Most of us are familiar with our friendly yearbook collectors. The collectors work very diligently with the fine co-operation of their instructor, Mr. Patterson. We students have all heard these phrases from our yearbook collectors or Mr. Patterson at one time or another: "Let's try and get our yearbook payments in this afternoon, or as soon as possible, since our time for payments are almost due," or, "Next week is the last time for your yearbook payments." The yearbook collectors appreciate the fine co-operation of the students and teachers which enable them to do their very best work.

OSCAR COLLECTORS

These ever working students make possible the distribution of our favorite newspaper, The Oscar. Being selected by the teacher of each home room, they have to possess the traits of honesty and patience for even a mechanical man would find himself a time of it under the "pleases" and excuses of our students who have lost that nickel or have had a case of lost memory about it being Friday. Of course, there is that old temptation of just spending a little of that "newspaper money" on the way home but somehow that "Oscar" envelope always turns up on Miss Fontanella's desk with everyone in good standing for another two weeks.

FORUM CLUB

This club, which is under the guidance of Mr. Hall, is one in which members learn about all the current events. It provides a means of education and entertainment for its members by discussion and debates on some of the important topics and after, an informal discussion is led. Sometimes a debate arises during the discussion. The necessary quality for a debate, quick-thinking is thus developed. The club's activities include an assembly, a trip to the big city of Pittsburgh, and a noon dance. The officers are very capable and have led the club thru a very successful year.

JR. RED CROSS

A part of the great national organization of Junior Red Cross, this is the first year of a regular club period for the JHS chapter. One of the activities of this service group include collecting Red Cross boxes to be sent overseas. This year the amazing number of sixteen boxes were sent. Services consist of foreign, national, and local divisions. The local chapter functions include sponsoring parties, entertainment and goodies for the Westmoreland County Home. Here's wishing this worthwhile group continued success and service. Through such unselfish contribution of time and effort, they help themselves through the help they give to others.

Clubs in School affairs

Club fellowship at the prom.

MICROMETER CLUB

This club is composed of boys from all the vocational shops. These boys spend their time way down on the bottom floor of the high school. It is under the capable leadership of Mr. Lang. To make the meetings interesting, Mr. Lang talks about various tools and their uses and also about our fine vocational shops. The boys of this club help to make our assemblies more enjoyable with their wonderful props and other handy fixtures. In order for these boys to see how a factory operates, they visit many of the outstanding ones in the near-by communities. So, girls if you wants a handy man around the house, take your pick!

ELECTRIC CLUB

The boys of this club seem to get a charge out of everything! Their aim is to promote a deeper appreciation of the contributions and services electricity renders to the community; also, to develop a deeper realization of the great part it plays in our modern civilization. These boys receive a great deal of actual experience by installing new fixtxures and repairing faulty electrical fixtures of the high school. Under the capable supervision of their sponsor, Mr. Ruby, the boys of this club spends a great deal of their time building experimental electric motors.

GIRL'S SPORTS CLUB

From the sound of the club's name, one may expect to find a group of muscle-bound females. But from the LOOKS of the club . . . well, that's a different story! ! ! Seriously, these girls turn to a proportionate amount of athletics to make a well-rounded program. Through such sports as basketball, badminton, volleyball, and softball, their bodies are kept in the same wholesome condition as their minds. Out of school, these gals keep in condition by means of bowling, swimming, and various sports which aid in the mental and physical development. The sports-minded gal who wears the black and white winged foot emblem is proud of her membership in the Girls Sports Club.

NURSES CLUB

The nurses club is a more recent club, started for the purpose of all girls who are interested in the nursing field. Movies on health and proper care are shown, and they prove to be very helpful. The girls have toured hospitals to get a general idea of what they are planning to do in the future. The initials of the Nurses Club are F.G.W., meaning the Future Girls in White. The girls of F.G.W., plan very fine club days, and everyone has an enjoyable time. This interesting club is open to all girls interested in nursing as a profession or experience.

Row Two: Glenn Seymour, Merle Stough, Glenn Smeltzer, Nick Masciantonio.

OFFICE GIRLS

And here are those busy little bees who sacrifice their respective study halls to help Mrs. Boettner in the office. When they are not hard at work collecting absentee slips and distributing mail, no doubt, they can be found assigning detention notices and office call slips (aha! so they're the ones to blame!). Mrs. Boettner, school secretary, candidly admits she would be lost without her "gals Friday" — and so would every student, teacher and administrator in the building!

SAFETY PATROL

Only two fellows — and how very much they do ! ! Running out between classes in rain, shine or sleet and snow, these conscientious fellows make it their business to insure student and faculty safety. Never once, in the 180 days of the school year have our "student traffic cops" failed to manage those "detour" signs with careful concentration. Under the auspices of Student Council, the safety patrol is another example of the fine student cooperation in securing safety.

STAGE CREW

Long before the curtain goes up on the weekly assemblies and special auditorium programs, the hard-working stage crew is busily preparing props, lighting, and general stage management. Those "heave ho's" and "ugh, pushes" which may have been heard, are examples of the not - so - easy chores these fellows perform. Mr. Albright may well be proud of his crew of stage hands who cheerfully continue their jobs of building, painting, erecting and tearing down stage scenery and props even after everyone else goes home!

Cheerleaders full-o-pep

BACK ROW: "7-up" McDevitt, Sally Gress, Mary Lou Reinfried, Eleanor Bellone, Valentino Petrilli.

FRONT ROW: "Dee" DeMark, Norma Myers, Co-captain; Myrna Ickes, captain; "Squirt" McDevitt.

CHEERLEADERS

Packed from tip to toe with "wim, wigor, and witality" are these ever-peppy cheerleaders. Bubbling with new ideas and new cheers, these well-known students put the "punch" into pep rallies. Their spirit of "never say die" prompted by captain Myrna Ickes and co-captain, Norma Myers, was well demonstrated at the rainy McKeesport game. Spectators left, the band left, but the cheerleaders remained, soaked to the skin and still roaring "We're the team that beats 'em all." Special recognition should be given to cute little "Dee" DeMark who kept screaming "victory" when she should have been home in bed. Folks like that are the ones who make our cheerleader squad so outstanding!

Greensburg cheerleaders join our pepsters at half-time.

the action we saw

In Jeannette High School, it's not Van Johnson or Bill Lawrence who charms the girls, but the J. H. S. letterman. There's just something about the lad who scores the touchdown or gets the base hit that sets the teen-age female population in a dither. But seriously, our school's athletic program is a well organized, well rounded one which serves to teach the world's most vital subject, teamwork. Good fellowship in the locker room stimulates championship teams on the field. And always a J. H. S. Jeannie cheering "Victory!" in the bleachers.

Our Jeannette High School Jayhawks had what is generally considered an unsuccessful grid campaign. Regardless of the Jays winning only two of their nine engagements, the local eleven provided thrills galore. Mr. Barnes and his assistants, Mr. Amann, Mr. Baughman, and Mr. Albright once again fielded a high calibre ball club with lots of fight.

Now, as we focus our sportlight beam on the past grid entanglements, we find the Jayhawks playing one of the toughest schedules in Red and Blue history.

CRAFTON WINS OPENER 13-6

The Jayhawk Pigskin Eleven met with defeat in the first encounter of the season. It was a classy outfit from Crafton who went home with the bacon. Jake Leasure was the only Jay gridder to cross the final white stripe.

SCHENLEY OUTCLASSES JAYS 19-6

A powerful team from Schenley invaded "Jayhawkland" to give the locals one of their toughest games of the year. The visitors deserved their well-earned 19-6 win as they displayed hard-hitting tactics as well as versatile offensive deception. The Jayhawks' only tally was credited to Tom Hankinson on a pass from Joe Bushyager.

Albright, Amann, Baughman, Barnes.

Our star coaching staff.

TURTLE CREEK VICTORIOUS 14-8

Following the Schenley Massacre came a heart-breaking loss to Turtle Creek. Hankinson scored the T. D. and Carl Matt was credited for the safety.

CONNELLSVILLE UPSET 12-6

The following week showed an improved Red and Blue squad grind out their first victory of the season. Joe Goody and Erv Guzik were individual standouts as they encountered for the Jay touchdowns.

LATROBE CAPTURES 26-6 WIN

The only afternoon game of the Jeannette schedule found the Latrobe Wildcats crushing the Jays 26-6. On offense, Guzik scored the lone tally. On defense, it was Matt and Al Constantine spark plugging the line.

JAYS CONQUER HUNTINGDON 24-7

The Bulldogs of North Huntingdon were the victims of the Jay's second victory. Hankinson and Bushyager each scored twice. Ted Kepple, outstanding tackle, incurred an ankle injury that kept him out of the remaining tilts.

JOHNSTOWN JUBILANT 21-7

Johnstown's Trojans inflicted a 21-7 loss upon the Jays. Jeannette put up a stubborn battle before finally being toppled. Hankinson scored his fifth TD of the season and "Bugs" Byrley converted the first and only extra point for the year.

McKEESPORT 33-12 VICTOR

The rain-soaked and mud laden turf of McKee Stadium was the scene of the Tigers' clawing win over the Jaybirds. Guzik and Byrley carried for our touchdowns.

GREENSBURG TRIUMPHANT 26-0

The traditionally unforgettable Jayhawk-Lion game saw the Lions out-play the Jays 26-0. A fine battle was staged by the entire Jayhawk aggregation who played their hearts out till that final whistle.

A banquet was held at the Greensburg Country Club in honor of the boys. Carl Matt, All-County guard, was named Honorary Captain.

JUNIOR VARSITY

The Junior varsity gridders playing under the leadership of coach A. Veronie ended its regular season with two wins and three losses. The Jayvees totaled 65 points as did their opponents over the five games schedule. The team was made up chiefly of freshmen and sophomores. Third string varsity players also took part in the games. These boys will be the stars of tomorrow in Jeannette football circles.

VARSITY BASKETBALL

The basketball circles the hoop, it's in, no it's out and there goes the section XI championship. The above incident occurred twice during the past cage season as the Jayhawks dropped two heartbreakers to Latrobe 45-44 and Greensburg 56-55. Despite the winning efforts for the sectional crown, the Jays were dethroned by the 1951 section champs of Greensburg. Mr. Joseph Churchman's boys were far better than the records reveal for almost all of the games recorded on the lost side of the ledger were by only a few points. The Jaybirds will lose the services of Tom Hankinson who for two years led the district scorers. Seven other outstanding players will be lost through graduation. These include Dick Gounder, Chuck Burchell, Wilbur Smith, Bob Getto, Joe Musiak, Bill Warrender and Jack Gordon. Junior Tony Rebo and Sophomore Jim Byrns rounded out the varsity squad. Bob Miller was the manager. The Jays provided an exceptional amount of excitement in every colorful game whether on the home court or away.

The county tournament found our hoop stars winning the first two games of the eliminations by notable margins only to lose in the semi-finals to an extremely tall Vandergrift team which one day later captured the county championship. The Jayhawks were awarded W.C.B.T. medals and later the senior cagers were given sweaters.

Junior Varsity and W. P. I. A. L.

Future Headliners

Our Junior Basketball teams proudly sported two good cage teams during the 1950-51 season. Mr. John Baughman once again floored a fine Junior Varsity which was seldom defeated. As a varsity combination next year the Jayvees of this season should fair well in section XI. Brean, Roscher, Chiapparelli, Kukich, Rebo, Waugaman and J. Roy were the most frequent starters.

Mr. Donald Hall's Junior W. P. I. A. L. five showed exceptional versatility as passers, and dribblers. The frosh were also brilliant as rebounders and their shooting percentage was above par. The freshmen lost only a few contests, these by narrow margins. Starters included Redlich, Gustafson, DeBridge, Jupena, Acrie and Williamson. The future is bright in J. H. S. Basketball circles.

WRESTLING

One of the newly-added winter sports in the past few years was wrestling. Each season our team showed marked improvement, and this year was no exception. Our "grunt" and groaners" gave the fans their strong support as they provided many interesting nights of wrestling. The local "Don Eagles" were again led by Mr. Veronie, who deserves much credit, in building this squad such as ours. Such boys as Don Werner, Erv Guzik, Jake Leasure, Dave Crossman, Lou Lauricia, Jim Volk, Ron Miller, Lou Matt, Bob Highlands, and Bob Boettner, along with others, helped to make our wrestling squad one of good sportsmanship as well as keen showmanship.

TRACK

They're Off!!!

The J. H. S. "thinclads", with their coach, Mr. Barnes, setting the pace, were off at the shot of the gun this spring, despite bad weather. The "Red and Blue" sprinters, hurdlers, vaulters, and weight men provided rigid competition, especially in the County Meet, held at McKee Stadium on May 12. Mentioning a few of the local Mathiases, Warmerdams, and Thorpes, who were the point makers for this year's team are: Richard Porcha, Tony Chiapparelli, and Conrad Clark . . . dash men Tom Hankinson, Joe Bushyager, Dick DiClaudio, and Dino Petrillo . . . Distance men Ted Kepple, Erv Guzik, and Terry D'Emilio . . . weight men. These are but a few of the boys who made this year's "cinder path" team a big success.

GOLF

Fore! ! !

As the seemingly endless plot of country club grass began to take color and various other spring signs began to develop, Mr. Elroy S. Albright started his initial golf practices. As spring became summer, a definite improvement could be depicted in our "Divot Diggers." Two year letterman, Jake Leasure was the Jayhawks spark in the victory crusades. The "Gentlemens Game" found for the first time in J. H. S. history a female club swinger, Rose Sara Altman. All members of team who chased the little white pellet over the district's hazardous courses will always remember the birdies, eagles, and wholesome enjoyment gained by playing for Jeannette High School Golf Squad.
